The Transitional Year Residency Program at Las Palmas Del Sol Healthcare was approved by the Accreditation Council for Graduate Medical Education (ACGME) in April 2019 and offers 13 positions. We are committed to training Transitional Year residents who need a broad-based clinical year before entering a specific specialty training program such as Anesthesiology, Dermatology, Neurology, Ophthalmology, Physical Medicine and Rehabilitation, or Radiology. Our program also aims to help residents who are interested in a career in primary care, but have not yet decided which specialty to pursue. By offering a well-balanced clinical year, our program provides the foundation to:

- Enhance the medical knowledge and patient skills of residents
- Enter a categorical or advanced training program
- Facilitate a medical specialty career choice
- Educate residents on providing care in underserved communities
- Satisfy the needs and interests of residents
- Recruit residents to practice in El Paso, Texas, or region once they become licensed physicians

Our program promotes intellectual curiosity not only by exposing residents to fundamental clinical skills and a wide array of tailored elective choices, but also by providing leadership development, enhancing medical knowledge through didactic teaching conferences, and by providing them the resources to actively participate in quality improvement and scholarly research projects. Residents have access to multiple resources to efficiently participate in different projects: on-site research coordinator, databases and e-books, and statisticians who can assist them to interpret the data.

Our Transitional Year is closely intertwined with our Internal Medicine Residency Program. Medical and Transitional Year residents work together in teams, share schedules, patients, and faculty, scholarly activities, and didactics. Transitional Year interns take responsibility for their patients while being closely supervised by senior residents and attendings. Residents also work with other medical professionals to solve problems and provide the best health care to underserved populations and communities with limited access/resources.

Our faculty

Luis A. Martin, M.D.

Program Director

Luis A. Martin, M.D. is a board-certified Internal Medicine physician who received his bachelor's degree from the University of Texas at Austin and attended medical school at the University of Texas Medical Branch at Galveston. He completed his residency at Texas Tech University Health Sciences Center at El Paso in 2007. Dr. Martin had the honor of being chosen as one of the chief residents during his residency. For a brief period after his residency, Dr. Martin took time off to care for one of his family members. He then returned to Texas Tech University Health Sciences Center at El Paso as an Assistant Professor for the Internal Medicine Department. He served as faculty there for three years and then accepted the Hospitalist Director position at Memorial Medical Center in Las Cruces, New Mexico. During his time at this facility, he worked as an instructor for the Southwest Family Medicine program in Las Cruces, New Mexico. In 2016, Dr. Martin became the TeamHealth Hospitalist Director at Del Sol Medical Center. During his time at Del Sol, he became the Assistant Program Director for the HCA Internal Medicine Residency Program in 2018 and later that year the Transitional Year Program Director. Dr. Martin has been intricately involved with the quality metrics of Del Sol Medical Center and works closely with the residents during their wards rotation. In his free time Dr. Martin enjoys mountain biking, hiking and enjoying time with his wife and four children.

About El Paso

El Paso is located on the Rio Grande River at the foot of the Franklin Mountain range, across the border from the City of Juarez (Ciudad Juarez in Mexico) in the far western corner of the state of Texas at the border to New Mexico. El Paso has a population of about 840,545 inhabitants (est. in 2019). A true melting pot of American and Mexican culture, the combination is noticeable everywhere. Our close neighbors in Ciudad Juarez, Mexico, and New Mexico also welcome and extend their hospitality. Favorite pastimes include golf, mountain biking, hiking.

About HCA Healthcare GME

HCA Healthcare is a comprehensive healthcare network with 280,000[^] colleagues across 2,000 care facilities all committed to creating a positive impact every day. We continually invest in our colleagues and facilities to better serve our patients and local communities. The graduate medical education programs seek to inspire tomorrow's physicians to care for and improve human life by focusing on patient-centered approaches to practicing the latest evidence-based medicine.

Influential Collaboration

HCA Healthcare residents and fellows have access to talented, highly skilled teams of faculty, industry experts and dedicated research teams to guide residents and fellows through their journey. Residents and fellows produce evidence that drives future practice by leveraging HCA Healthcare's national clinical data warehouse – the heart of our data ecosystem.

HCA Healthcare Scholarly Commons is a platform to collect, share and publish the variety of academic work created by the Graduate Medical Education community. It is a collaborative, open access resource developed to discover and showcase our contributions to medical knowledge. Included on this platform is the **HCA Healthcare Journal of Medicine**, a peer-reviewed scientific periodical focused on innovation, enhanced quality and developing new knowledge in clinical care and medical education for the benefit of all patients.

About HCA Healthcare

HCA Healthcare is one of the nation's leading providers of healthcare services and is comprised of 186 hospitals and more than 2,000 sites of care including surgery centers, freestanding ERs, urgent care centers, diagnostic and imaging centers, walk-in clinics and physician clinics in 21 states and the United Kingdom. With its founding in 1968, Nashville-based HCA Healthcare created a new model for hospital care in the United States.
